Penken Moorland Nature Trail

A fascinating discovery trail on a panoramic Alpine path

Gottfried Laner

The Moorland Nature Trail, created in 2007, is an opportunity to explore moorland and wetland biotopes. These habitats are some of the most endangered in Tyrol, in which many threatened and protected plants are found, such as cotton grass and sundew, a „carnivorous“ plant. The gentle panoramic path from the Penken to the Schrofental passes several fens caused by swamps. Stop and admire the beauty and rarity of many of the plants that are found in them! Passing the wonderfully located Chapel of St Barbara, the descent takes us to Vorderlanersbach and by bus back to Finkenberg or Mayrhofen. The Moorland Nature Trail is a great experience for both young and old!

„Valuable“ local specialties

Erika Sporer
